

Pre-Paid Return Program **LAMP RECYCLING PROGRAM**

Why Recycle?

Fluorescent lamp waste causes more mercury contamination of the environment than any other consumer product. Mercury is a toxic metal that is hazardous to both the environment and human health and is currently one of the hottest topics at EPA. Due to the presence of mercury in fluorescent lamps that are used in insect light traps, **PESTWEST** encourages the recycling of these materials and it's your corporate responsibility for proper disposal. There are more than 500,000,000 lamps that end up the environment every year. Depending on your state regulations, disposing of your spent tubes in a dumpster or a municipal landfill is not an option and levied with hefty fines. Recycling maximizes the reuse of the components - while minimizing your liability.

Peace of mind with PestWest -

**Comprehensive and convenient pollution prevention program -
Offering complete compliance with ALL federal, state and local regulations**

PestWest has a Prepaid Recycling program service for all of your spent lamps from your annual Insect Light Trap re-lamping services.

1. Use the undamaged packaging that your current PestWest lamps are packaged in, for your lamp replacement or disposal project.
2. Call PestWest at **866.476.7378** to obtain your FedEx Ground shipping label, two warning/instruction labels for you to apply to the return carton, a shipping number and any special instructions that you may need.
3. Affix orange warning label to the side of the box. Be sure to write the Accumulation Start Date on this label. Also peel and attach the white "Do Not Discard" label to the box.
4. When the box is full of spent lamps, tape both ends of the box completely closed, fill out the FedEx Ground shipping label with your facility's name and address and attach this label to the box.
5. **IMPORTANT** - Do not mix lamp lengths or widths.
6. **DO NOT** alter label. FedEx will not accept any package with a label that has been altered or tampered in any way.
7. Give this box to your FedEx ground driver during a routine delivery or call **1-888-777-6040** for a package return pick-up.
8. Within four weeks, a confirmation **recycling certification** will be mailed to you for your records.

PESTWEST® PRE-PAID RECYCLING PROGRAM IS AVAILABLE FOR ALL FLUORESCENT MERCURY BEARING LAMPS.

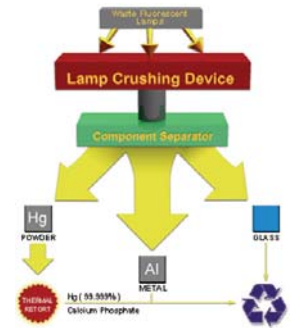

ADVANTAGES OF PESTWEST® LAMP RECYCLING PROGRAM

- One price includes everything you need
- Convenience for small quantities and PMP's with storage limitations
